

## 11 Locations selected from larger SDA List 1/22/2020

All of these locations (below) can be found on SDA's longer list of recommended sites

### Whidbey Island – Residential

- Kenneth Point Place & W Redwood Drive, Coupeville – n/a [FCLP] --- We have very little data thus far on Track 14 residential impacts, just a session from Long Point. Conversely a good bit of data for Track 32.

### Schools and Business

- Ebey Academy (140 SE Terry Rd, Coupeville; daycare facility by high school) – n/a [FCLP] --- This site will provide data relevant to this large daycare, the immediately adjacent high school and middle school, and will provide an approximation of noise at the elementary school and hospital.
- Clover Valley (daycare facility), OH --- This is an important facility that is hard hit by the Ault Field operations.

### Parks

- Reuble Farm, Coupeville – P17 [FCLP] --- Right in the middle of the Praire and Reserve, so important to the park and agricultural operations and will provide a check on modeling as it was a site with EIS modeled data.
- Deception Pass State Park, north of OH – P05 [FO] --- This is important as it relates to park visitor experience and take home, because it is a possible nesting area of marbled murrelets, and it will provide a check on modeling as it was a site with EIS modeled data.
- \*Joseph Whidbey State Park, OH - P01 [FCLP & FO] --- Another popular park that is unlikely to be as loud as the other park sites, and it too will \*provide a check on modeling as it was a site with EIS modeled data.
- \*This site could be replaced with another residence in the OH (6. Sullivan Road, OH – R01) or Coupeville area (2. West Olympic View and Prairie View, Crockett Lake Estates)

### Olympic Peninsula

Location_Name	Lat/Long (if published)	Years w/ monitoring
Hoh River Trail	47.86627, 123.9146	2010-2011, 2017-2018
Lake Quinault	47.486195, -123.886248	None

### San Juan County

Point Colville, San Juan Islands National Monument, Lopez Island

(1) close proximity to Growler training areas on Whidbey Island \*

(2) impacted Federal lands \*

(3) representative of the heavily impacted residents during FCLPs on southern Lopez and San Juan Islands.

\* specifically called out in Section 325 of the NDAA

### Port Townsend

Fort Worden. Historic buildings were never included in the Growler Section 106 process or Area of Impact of the Growler ROD expansion.
